

Meritor Parts

Meritor Parts - Meritor is a premier international dealer which is proudly founded on a 100 year custom of quality and service. They concentrate on several modules, integrated systems and parts to original equipment makers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's unique energy and thinks that this energy contributes to their competitive advantage in the worldwide operations. The company values all of their customers and wants to ensure their success while anticipating their various needs. Meritor starts with a culture which values diversity of individuals and their broad thought processes. Operating in 19 countries and employing over 11,200 individuals, Meritor encourages innovation and collaboration among a team of knowledgeable experts.

By just hiring future focused people, Meritor strongly thinks these top-caliber people will be able to quickly get used to to changing surroundings and exhibit the performance and commitment considered necessary to reach results in the competitive materials handling business. The business empowers their teams to make sound business decisions to be able to enhance the overall success of the business. In return, Meritor provides all of their workers different opportunities for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering that comprise drivelines, axles, braking and suspension systems meant for medium and heavy duty trucks, trailers, off-highway vehicles, buses and military vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is also responsible for supporting the needs of all their international engineering personnel.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants that are located around the globe in 19 countries and in 5 different continents.

The supplier development network is particularly situated to support new business growth. Regional teams are supported by worldwide quality systems, centralized specialties and initiatives in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each and every part of the company. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is also included transactional Green Belts who utilize Six Sigma tools to business methods and implement lean techniques.
